ABOUT HOUSTON

HOUSTON, THE NATION'S FOURTH LARGEST CITY, is bustling with culture and energy. Founded in 1836 by Augustus Chapman Allen and John Kirby Allen, today Houston covers 8,778 square miles and has a growing population of roughly 2.2 million.

Houston is an entertaining place to visit. Take the food, for example. Houstonians enjoy the opportunity to try cuisine from all around the world. Regularly captured in articles on websites such as [Bon Appetit](#), [Food & Wine](#), and [Saveur](#), Houston is home to internationally renowned chefs crafting their dishes in more than 11,000 restaurants in the city. We list a few of our patients' favorites in the [Indulge](#) section of this guide.

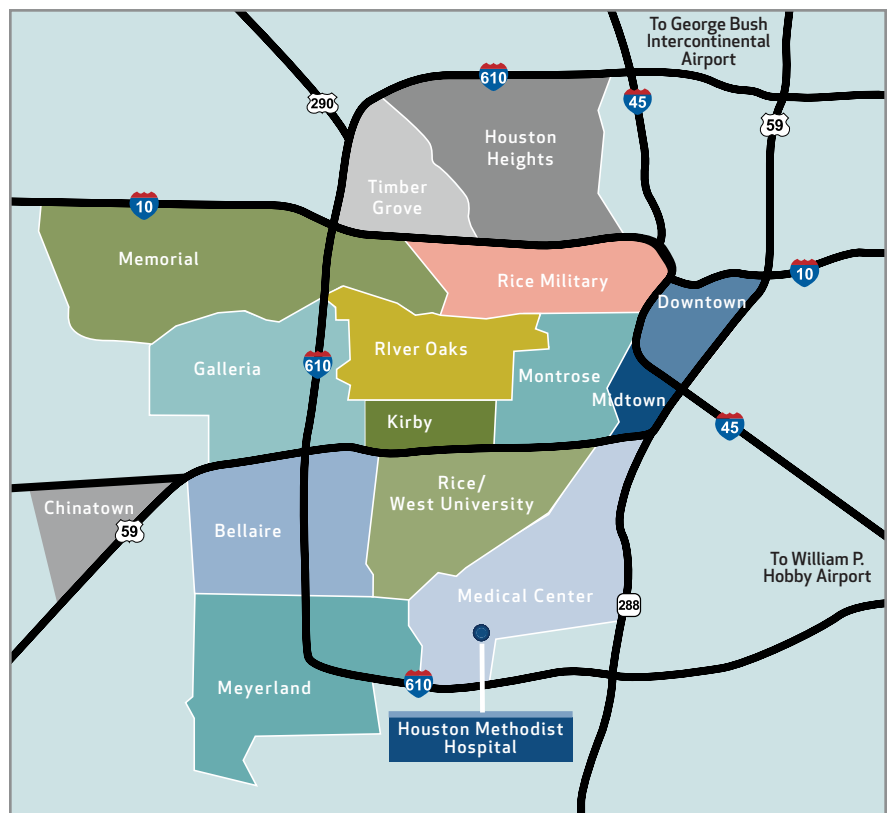

Houston has a thriving arts scene in the theater district with multiple theaters and residential arts organizations like the Houston Ballet, Houston Symphony and Houston Grand Opera. According to [Visit Houston](#), the [museum district](#) stakes its claim as the country's fourth largest, with 18 cultural powerhouses set within blocks of one another.

We highly recommend *The New York Times* article [36 Hours in Houston](#), which highlights things to do in the city when you only have a limited time available.

In short, Houston offers something for everyone. Here are a few other facts and figures according to the [City of Houston](#):

- More than 90 languages are spoken throughout the Houston area.
- Houston is home to the Houston Livestock Show & Rodeo™.
- Houston has more than 40 colleges, university and institutions.
- Houston's professional sports teams play football, baseball, basketball and soccer.

Houston is classified into neighborhoods. We've identified the neighborhood for each of the resources included in this guide. This map will be a useful tool as you navigate your way through the city.
